FIG. 7

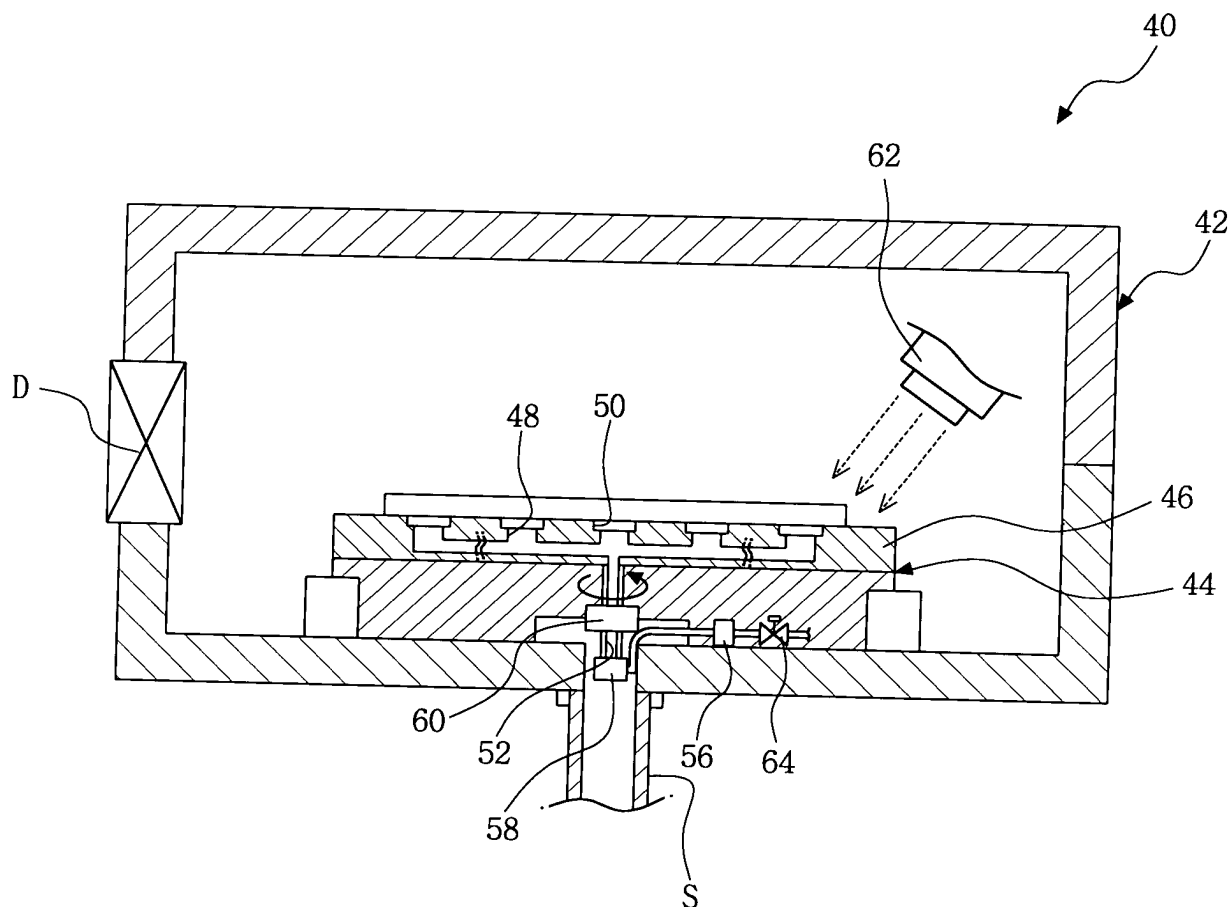

Figure 1 consists of 12 sub-charts, labeled (a) through (l), each representing a different demographic or attitudinal category. Each chart displays the percentage of respondents for that category across six age groups: 18-24, 25-34, 35-44, 45-54, 55-64, and 65+. The y-axis for all charts ranges from 0 to 100. The x-axis labels are consistent across all charts. The categories and their corresponding bar colors are: (a) Gender (blue), (b) Education (orange), (c) Employment (green), (d) Income (red), (e) Health (purple), (f) Family (brown), (g) Social (pink), (h) Culture (grey), (i) Environment (light blue), (j) Politics (light green), (k) Religion (light orange), and (l) Other (light purple). The data shows varying trends across age groups for each category, with some categories showing more stability and others showing more variation.
